System capacity and flexibility

The system not only allows to store all the data and create reports and charts, but it is especially editable when adding or editing forms and structure, without the need for complex programming tasks

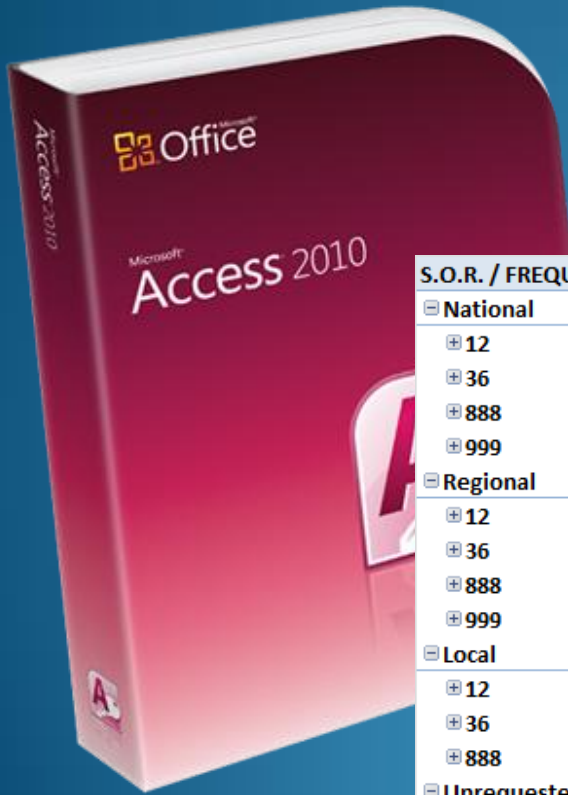

REGIONAL AND LOCAL OFFICE LIST
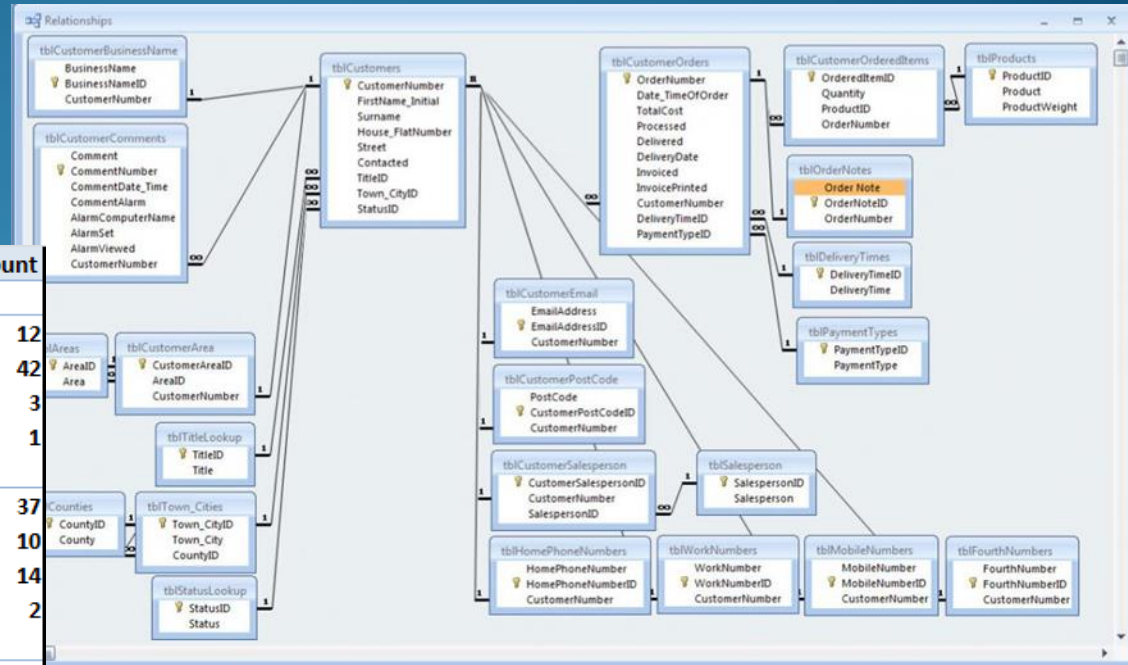

Regional and local office list

REG CODE	REGIONAL NAME	LOC CODE	LOCAL NAME
1	North Directorate		
		2	North Shouneh (DA 5)
		3	Al-Manshiyyeh Pump Station 14

What you need to customize the structure of the data and of the reports is a Microsoft Access 2010 software license, and then to provide for the distribution of the installation package to all hierarchical levels, regional and national

Saved and archived info

The data are automatically stored in the distributed file and are exported through wizards to be imported at higher level in the hierarchy, to complete system

Data migration

any system and database already existing will be considered and imported to integrate into the new system, where data and structures are compatible
